THIRTEENTH CONGRESS
First Regular Session

House Bill NO. 31

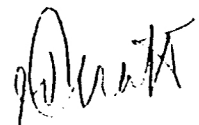

Introduced by HON. EDGAR M. CHATTO
1ST DISTRICT, BOHOL

EXPLANATORY NOTE

To prepare our youth for the 21st Century and keep them at pace with the world as it moves rapidly into the Information Age, the State should be at the forefront of educational financing, systems and other modes of support. Peter Drucker, advocate of the concept of the knowledge society, opines that in the Information Age, defined as a world in which value is created by productivity and innovation, by applying knowledge to work, workers who work with their minds rather than with their hands will be in demand.

Presently, however, the Fatima High School in the Municipality of Cortes, Province of Bohol, lags behind this ideal world. Converting it into a national high school will provide an opportunity to its students access to quality education and make them indispensable elements in transforming the Philippines into a knowledge society.

During the 12th Congress, this bill was referred to the Joint Senate Committees on Education, Arts & Culture and Finance on 1st Reading. But due to time constraints, it was never taken up again. This bill is therefore re-filed for the consideration of this Congress.
