Thirteenth Congress

First Regular Session

HOUSE BILL NO. 176

Introduced by Honorable Constantino G. Jaraula

EXPLANATORY NOTE

This Bill was filed with the 11th Congress as House Bill No. 8097 and the 12th Congress as House Bill No. 1202, with the following Explanatory Note:

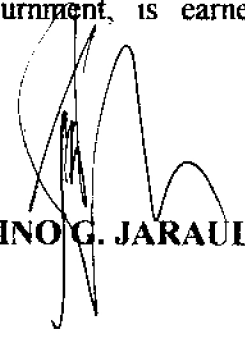

“In the recent past the bamboo as a natural resource of the country has always been taken for granted because of its abundance. One could not imagine a Philippine landscape without the ubiquitous bamboo. Everywhere you turn you invariably see bamboos all around. In the provinces, especially in the rural areas, such was the proliferation of the bamboo that they were practically part of every backyard.

“The bamboo’s usefulness is undeniable. Before the concrete jungle started to dominate the metropolis and the urban areas, bamboo was the main material in the construction of houses and edifices, furniture and all sorts of handicrafts.

“It is sad to note, however, that this precious natural resource is fast dwindling. Like other forest products, the people did not bother to replace or conserve them. As the young bamboo shoots are also edible, the uncontrolled cutting of these shoots may even cause their eventual disappearance.

“To save this very useful and versatile natural resource, this bill proposes to establish a bamboo nursery, at Barangay San Simon, City of Cagayan de Oro.”

In view of the foregoing, approval of this bill, which was filed before the 12th Congress but was not acted upon at the time of its adjournment, is earnestly recommended.
