THIRTEENTH CONGRESS

First Regular Session

House Bill No. **214**

Introduced by Hon. Rozzano Rufino B. Biazon

EXPLANATORY NOTE

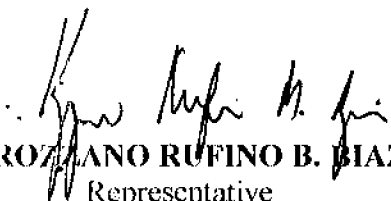

The Constitution unequivocally recognizes the role of the youth in nation-building, and underscores the importance of education in promoting total human liberation and development. Thus, the State exerts much effort in providing education to its youth for, archaic though it may sound, in their hands, indeed, does our nation's future lay.

Consistent with the thrust to provide quality education is the emphasis given on science and technology by the Constitution as building blocks in the attainment of our goals. Indeed, science and technology have become a core part of the curriculum in secondary education.

This bill seeks to convert the Muntinlupa National High School into the Muntinlupa National Science High School, pursuant to Section 17, Article II of the Constitution, that provides thus: "The State shall give priority to education, science and technology, arts, culture, and sports to foster patriotism and nationalism, accelerate social progress, and promote total human liberation and development."

This bill aims to call upon the State to make this specialized education accessible to the underprivileged, to fulfill its mandate to develop analytical and critical minds in our youth.

Approval of this bill is earnestly requested.
