First Regular Session

House Bill No. ~~751~~

Introduced by **Rep. Roberto C. Cajés**

EXPLANATORY NOTE

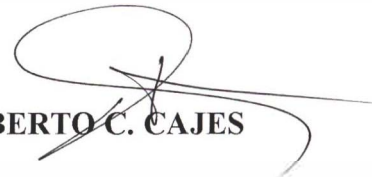

The importance of education to human resource development finds support in the Constitution. It also recognizes the vital role of the youth in nation building that the State is called upon to promote and protect their intellectual well being. Thus, the government must undertake to make education available to all especially to the young and underprivileged members of our society in the countryside.

The accessibility of education in urban areas is not much of the problem since public and private education is within easy reach there. Unfortunately, this is not the situation in far-flung rural areas and in island barangays. While the youth in these places are equally entitled to benefit public schooling like their counterparts in the cities, they are not however, so placed in the same footing because of the present inadequacy of appropriate education institutions in the countryside.

Distance or remoteness of certain rural areas should not be made an excuse for the continued shortcoming of education facilities in the barangay level. Instead, this should be the compelling reason for the government to strengthen its effort to reach out to these places and advance the intellectual development of the people. Education is important to them as it is to the urban locality.

Thus, the attached bill seeks to establish the Calituban National High School in the island Barangay of Calituban, Municipality of Talibon, Province of Bohol.

Hence, passage of this bill is earnestly requested.
