HOUSE BILL NO. 763

Introduced by Representative Harlin Cast. Abayon

EXPLANATORY NOTE

The Philippines is endowed with great scenic beauty, historically significant sites, natural resources and a population whose traditions are attractive to tourists. These assets should be preserved and nurtured, not only appreciated by others, but because they are valued by the country's very own citizens.

Tourism has always played a vital role in the contribution to the country's economy. The pecuniary gains which may be derived through tourist spending, foreign exchange earnings, and employment generation contribute largerly to the stability of any economy.

The national government, for the past years, has encouraged tourism and recreation explicitly in a number of decrees, executive orders and legislative enactments. The development and promotion of tourism however, to a large extent, confined only to the Department of Tourism, which is tasked solely in the formulation of the country's plans, programs and strategies for the tourism industry. While our country is composed of more then 1,700 islands, with more than 70 million Filipinos of diverse ethnic origins, the Department of Tourism needs the proper support in developing the vast potentials of tourism to a level where the country may derive optimum benefits.

There is need, therefore, to lay down integrated ad coordinated policies; plans and strategies down to the Local Government Unit which is essential in order to address the aforementioned problem. Local Government Units, because of their familiarity of their respective parochial character may serve ideal in achieving the national goal towards the fullest development of tourism in the country.

In view thereof, the attached bill seeks to create the position of Tourism Officers in every province, cities, and municipalities.

Hence, approval of the measure is earnestly requested.
