THIRTEENTH CONGRESS

First Regular Session

House Bill No. 925

Introduced by REP. JUDY J. SYJUCO

EXPLANATORY NOTE

It is a declared policy of the state to protect and promote the physical and mental well-being of its citizens. This bill, therefore, seeks to upgrade the New Lucena Polytechnic College Lying-In Clinic in the Municipality of New Lucena, Province of Iloilo, from a ten (10) bed to a twenty-five (25) bed clinic.

The establishment of the New Lucena Polytechnic College Clinic provided residents of the area an easy access to medical facilities and health services. Although small compared to other health care institutions in the Province of Iloilo, it fully served its purpose of providing affordable medical and health care services by catering to the marginalized people in the municipality of New Lucena as well as others from the nearby towns and barangays.

However, with the continuing surge in the population and the ever-increasing need for viable health institutions, the clinic needs to be upgraded to be able to fully serve its purpose efficiently. This way, more people can benefit from the services of the clinic and the welfare of the residents can really be looked into with foremost attention.

In view of the foregoing, passage of this bill is earnestly sought.
