THIRTEENTH CONGRESS

First Regular Session

House Bill No. 946

Introduced by REP. JUDY J. SYJUCO

EXPLANATORY NOTE

Findings show that nearly all elementary and high schools throughout the Second District of Iloilo, if not all, have perceived need for additional classrooms, academic buildings, and school facilities. This would respond to the problems as a result of a growing student population, advances in arts and sciences, and new trends in the curriculum of both primary and secondary education.

In particular, all the elementary and high schools in the Second District of Iloilo badly need additional structures such as classrooms, academic buildings, and like facilities in order that the quality of education and the welfare of the students will not be jeopardized.

Therefore, it is most systematic if appropriate funds be programmed to implement the purpose of this Act to once and for all address these concerns. With more classrooms, academic buildings, and such other school facilities in place, its favorable impact on the social, economic and political well-being of this district will be immediately felt.

The approval of this bill is urgently sought.
