

13TH CONGRESS OF THE
REPUBLIC OF THE PHILIPPINES
First Regular Session

}

HOUSE OF REPRESENTATIVES

House Bill No. 1206

INTRODUCED BY HON. CYNTHIA A. VILLAR

EXPLANATORY NOTE

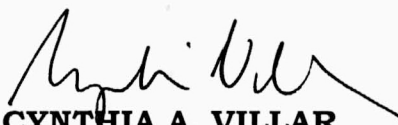

The 1987 Constitution of the Republic of the Philippines provides that the State shall establish and maintain a system of scholarship grants, student loan programs, subsidize and other incentives which shall be available to deserving students in both public and private schools, especially to the underprivileged. (Sec. 2 (3), Art. XIV)

While there are existing scholarship programs for the specially gifted students, a study grant for members of the National Cultural Communities, and the study-now-pay-later plan for deserving but poor students, the said programs provide only limited slots.

To date, there is no ambitious government program that takes care of the mass of secondary level graduates who want to pursue higher education, but fail to do so due to poverty or financial difficulties.

For this reason, this bill on student financial assistance program is introduced to provide educational assistance to secondary graduates who, because of poverty or financial difficulties, could not pursue higher education. This educational assistance program is designated for students of financially disadvantaged families and is intended more as an economic aid rather than a merit award.

In view of the foregoing, the early approval off this bill is requested.
