EXPLANATORY NOTE

The establishment of a fisheries and aquatic resource center in the City of Roxas in the Province of Capiz is designed to provide technical assistance and services to the fishery sector in the Province of Capiz.

In its existence, the Center shall set the directions, objectives, and the operations of many fishing activities; engage in technology, research and development in the field of fishery; and streamline all concerns in order to preserve and propagate aquatic and marine resources to benefit sectors involved in related fish production, hatchery, cage farming, aqua culture and the like.

Therefore, the establishment of the Center is long overdue to preserve an ideal aquatic ecosystem.
