HOUSE BILL NO. 1335

INTRODUCED BY

HONORABLE RODRIGUEZ D. DADIVAS

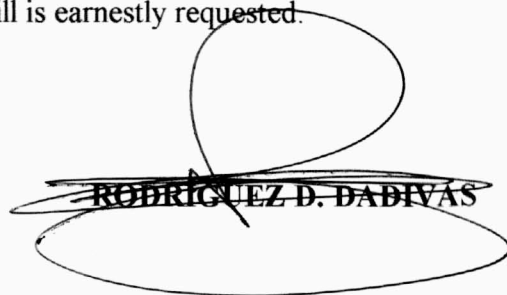

EXPLANATORY NOTE

This bill seeks to establish an animal breeding station and livestock farm in the municipality of Panitan, Province of Capiz.

Capiz is primarily an agricultural province with infrastructures that are geared towards that end. With scarce allocation of funds from the government, the building of industrial infrastructures would be too much expensive. The wiser alternative is to build secondary agri-based businesses in order that the province may develop with a greater speed.

The country is lacking in livestock farming. There is a demand to import dairy products and to improve the grade of meat. This means there is also a demand for the expansion and development of the industry. With basic infrastructure properly located and wide areas to handle the industry, the Municipality of Panitan, Capiz would be ideal for livestock farming.

With the foregoing, approval of this bill is earnestly requested.
