THIRTEENTH CONGRESS
First Regular Session

HB NO. 1620

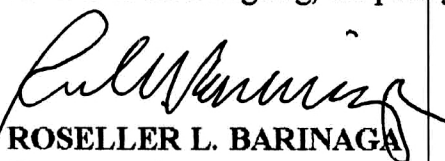

Introduced by Rep. Roseller L. Barinaga

EXPLANATORY NOTE

This bill proposes to institute a training program for college teachers in both private and public universities and colleges for the purpose of improving the quality of tertiary education in the country. The proposal seeks to expand Republic Act. No. 7784 (An Act To Strengthen Teacher Education In The Philippines By Establishing Centers of Excellence, Creating A Teacher Education Council For the Purpose, Appropriating Funds Therefor, And For Other Purposes") to include in the program teachers in the tertiary level. The aforesaid law institutionalizes changes in the curricula and course offerings of educational institutions and allocates funding for research and school facilities. The proposed bill further provides fiscal incentives and other non-monetary benefits to teachers in order to motivate them to improve their performance. At present, teachers in the primary and secondary levels undergo continuing education through Teacher Education Centers of Excellence mandated under Republic Act. No. 7784 where they also enjoy periodic merit examinations to test their knowledge in professional education, general education and in their fields of specialization.

Education, however, cannot be upgraded through the above-mentioned measures alone. The success of any educational system depends largely on the ability of teachers to communicate effectively with students. College teachers may have sufficient grasp or even mastery of their fields of study but if they do not employ the proper teaching methods, the quality of tertiary education will continue to deteriorate. To remedy the problem, it is therefore necessary to institute a program for the continuing education of college teachers similar to that required of teachers in the primary and secondary levels so as to complete the reform of our educational system. Such program must focus on training on the proper teaching methodologies but it may also cover other areas of study where continuing education is necessary. The purpose of the program is to revitalize the human resource component of the government's education program by enhancing the skills of our college teachers.

In view of the foregoing, the passage of this bill is earnestly sought.
