HOUSE BILL NO. 1830

INTRODUCED BY REP. GLENDA B. ECLEO

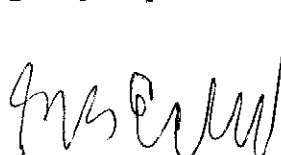

EXPLANATORY NOTE

This bill seeks to require private employees to establish and provide sleeping quarters and/or facilities for their women employees.

The extent and gravity of crimes against our women in this country are evidenced almost daily by press reports, as rape-slay cases are now common items which occupy regularly the front pages of our daily papers. The numbers of those being victimized continue to rise everyday. These not to include such other senseless crimes and violence committed by some lawless elements, and even by law-enforcers, agents and some government officials, against our women. Majority of which incidents occurred normally during nighttime.

This measure, therefore, intends to provide support to our women, especially those who are working at nighttime and residing at distant places.

Such that, immediate approval of this bill is urgently requested.
