**EXPLANATORY NOTE**

When RA 7796 otherwise known as the TESDA Act of 1994 was enacted, training centers were built in all provinces nationwide to provide for quality and efficient technical education and skills to Filipino youths. These centers were provided with organic personnel who serve as the trainers of their enrollees. Unfortunately the province of Siquijor was left out in the distribution of training personnel who will man its existing training center. Hence, its training center is now manned by trainers who are funded from the residual funds of the Municipality of Lazi. Needless to state, it is poorly and inadequately staffed and equipped to carry out the true mandate of the TESDA law. The vision of the law may be lost in this part of the country if no remedial measure is passed to correct this inequity.

The passage of this bill would even out the intent of the law in all the country's provinces. Hence, it is respectfully prayed that it be approved with expediency.
