

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

THIRTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 2788

Introduced by Congressman Antonio M. Diaz

EXPLANATORY NOTE

The country's national development plan that will push the Philippines to newly-industrialized country (NIC) status, strongly advocates the use of technology to enhance the people's science and technology attitudes and skills and to optimize productivity. In line with this, the government encourages the utilization of information and communications technology (ICT) to achieve its vision and goals through people empowerment and global competitiveness.

One feasible approach in empowering our people and make them globally competitive is to harness their technological abilities and skills. One area that is worth considering is to increase the level of computer literacy in the countryside in order to produce world-class experts. The idea of setting up Information and Communications Technology Training Centers in the municipalities is so crucial and significant to achieve this objective.

In the light of the foregoing, immediate passage of this measure is earnestly sought.
