Thirteenth Congress
First Regular Session

House Bill No. 2849

Introduced by Honorable Catalino V. Figueroa

EXPLANATORY NOTE

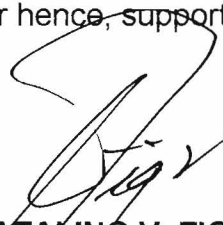

This bill provides for the installation of a 5,000-liter aerial water tank for the Burgos Elementary School in the Municipality of Basey, Province of Samar.

Water is important. Every living creature is entirely dependent on water. Thus, a permanent supply of potable water is a top priority need of any community or establishment.

The students and teachers of the Burgos Elementary School in the Municipality of Basey are having difficulty in securing potable water especially during summer time. It is a pity that, in this school, water is so scarce that there is none to water the plants, to clean the school building with and, more importantly, to quench the thirst of the students and teachers.

The parents of the students, the teachers and students of Burgos Elementary School have been clamoring for government assistance for the installation of a water tank sufficient to store potable water for the school's use.

This bill is in response to this clamor hence, support and its early approval is earnestly sought.
