House Bill No. 3252

Introduced by IGNACIO T. ARROYO

EXPLANATORY NOTE

It is the declared policy of the State to protect and promote the right to health of the Filipino people and instill health consciousness among them by giving unimpaired access to health and information services.

It is therefore imperative that we enact a measure that would provide incentives and benefits to our Barangay Health Workers, the frontliners in the promotion, protection and maintenance of health in the rural areas.

Approval of this measure is highly recommended.
