Thirteenth Congress
First Regular Session

House Bill No. 3277

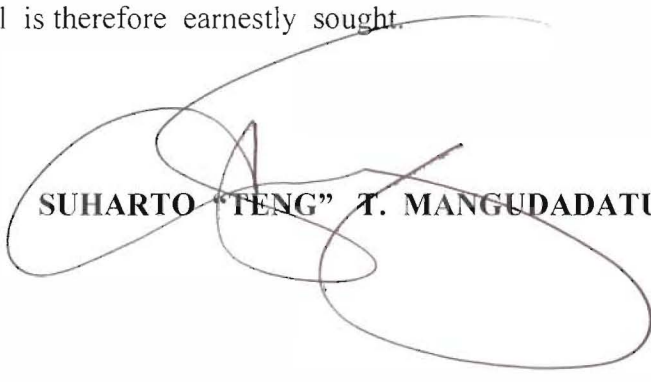

Introduced by HON. SUHARTO T. MANGUDADATU

The salient point of Republic Act 6655, otherwise known as “Free Public Secondary Act of 1988”, is the establishment and provision of free secondary education with the aim of improving skills and enhancing knowledge of high school students to better prepare them for a more complex higher learning.

In view of the growing student population, the existing public high schools cannot accommodate the influx of enrollees. Added to this is the fact that most of our existing public schools lack the proper facilities and resources.

It is therefore imperative to sponsor the immediate conversion of Keytodak extension high school into an independent national high school in order to upgrade its facilities and resources to better equip its students with the knowledge and skills needed to hone their potentials. Furthermore, this will resolve the perennial problem on access and mobility that usually discourages potential high school enrollees in nearby barangays from attending school.

The passage of this bill is therefore earnestly sought.
