House Bill No. 3436

Introduced by Rep. Anthony C. Miranda

EXPLANATORY NOTE

Much of the inimical effects of poverty the country experiences these days are being passed on to the most vulnerable sector – the youth. Most of today's youth do not have sufficient means to finish high school, or at least reach such level. It is indeed disappointing to state the obvious results, but it would be more downheartening to put all efforts in annihilation. This younger generation may turn into a liability, or be made into the country's prides and assets.

In the Municipality of Jones, Province of Isabela, most elementary school graduates cannot proceed to high school due to the far distance of their homes from the Government Secondary Schools which are usually located in the urban areas if not in nearby towns. Providing for High Caliber education is one major step to respond to this problem. Providing it for free and easy accessibility is another.

This bill aims to advance the right to free and equality education of every Filipino youth, particularly in the secondary level. It seeks for the establishment of an institution that would promote learning, while the providing for the employment opportunities to qualified instructors in the area.

The future of any society depends on the kind of youth it has. But the future of these youth depends on the endeavors this present generation has committed to.

In view of the foregoing, the passage of this bill is earnestly sought.
