HOUSE BILL NO. 3522

Introduced by HONORABLE LUIS R. VILLAFUERTE

EXPLANATORY NOTE

This bill seeks to construct a flyover along Daang Maharlika, between Kilometers 438 and 439, at the junction of the Naga City Diversion Road turning into the Concepcion – Pequeña Road. This is the main access from the north, in the direction of Metro Manila, to the south bound route, headed for the Province of Albay.

Given the heavy flow of traffic moving to and from the Province of Albay and passing through the City of Naga, in the Province of Camarines Sur, it is imperative to take measures to decongest such traffic flow, in order to facilitate the transport of people and goods, and accelerate the overall economic development of the region.

The rapid growth of population within Naga City and the increasing inflow of visitors and the related economic activities resulting therefrom must be correspondingly matched by an efficient and effective system of transport and traffic management that have modern infrastructure support.

It is therefore of utmost importance to construct a supplementary or alternative but faster route that will provide a solution to traffic congestion along the said route.

Considering the merits of this Bill, its early approval is earnestly requested.
