Thirteenth Congress
First Regular Session

House Bill No. 3620

Introduced by Honorable Catalino V. Figueroa

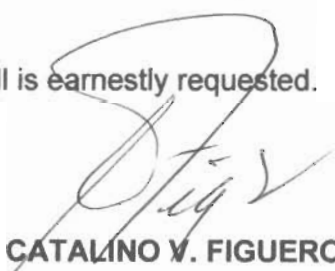

EXPLANATORY NOTE

This bill proposes to establish a breeding animal stock farm/center for production/multiplication research center in Mt. Huraw Hill in the Municipality of San Jose de Buan, Province of Samar.

The Province of Samar has substantial pasturelands and upland areas suitable for raising carabaos, cows, goats and other animals raised for food. The main food of these animals is grain. As of now, there is an inadequate supply of farm animals in the province. Animals are important to the daily subsistence of people. As food, their meat is a good source of protein. Their meat and milk, which, if produced in a large scale, can help solve the malnutrition problem and the lack of food in the province.

The raising of animals will benefit not only the farmers but it will also involve the people in the province in cooperative ventures. It will help augment the income of families, aside from providing a source for the necessary nutritional requirements.

It view thereof, approval of this bill is earnestly requested.
