THIRTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 3825

Introduced by Representative Faysah RPM Dumarpa

This proposed bill seeks for the establishment of a **National Identification System**. Under this system, the national identification card shall serve as the official identification of a Filipino citizen or alien permanent resident who shall be dealing with a department, bureau, agency, or office of the government or any government-owned or controlled corporation, firm or establishment, including, but not limited to government financial institutions.

With the use of the national identification card, there is no need to present other documents required for identification purposes in order to easily facilitate, for instance, the issuance of passports and other official documents required by our citizens from the government. It will also be utilized to make the payment of fees and the collection of taxes much easier and efficient. Election frauds and other forms of election-related offenses can be minimized with the use of a national identification card. Other similar identification cards bearing the same information on the identity of the bearer reflected in the national identification will be discarded. Furthermore, the issuance said identification card shall be free.

Considering the foregoing, the early approval of this bill is sought.
