EXPLANATORY NOTE

Mobility that is fast, safe, accessible and reliable is the principal key to progress. To achieve this goal the national government must prioritize the establishment of more airports in the country.

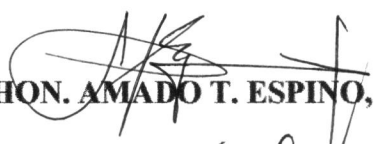

The presence of a commercial landing field shall certainly expand economic growth in the Province of Pangasinan and will also spur tourism development in the Northern Quadrant. The airport will served local travelers, overseas workers, tourists and trades that certainly will generate income and create employment to residents, boost tourism, promote trade and of course decongest the air and land traffic at the MIA vicinity.

This bill seeks to construct and operate a domestic airport in Barangay Leet, Sta. Barbara, Pangasinan to ensure the economic and social welfare of the people of the Province of Pangasinan as well as its neighboring province. As such, the passage of the bill is earnestly requested.
