Thirteenth Congress
Second Regular Session

House Bill No. 4800

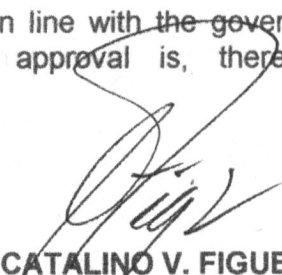

Introduced by Honorable Catalino V. Figueroa

EXPLANATORY NOTE

This bill seeks to provide for the construction of a concrete pathway from the diversion road going to the Hinabangan National High School in the Municipality of Hinabangan, Province of Samar.

Hinabangan National High School is the main secondary school in the Municipality of Hinabangan. Most of the children of the residents in the said municipality are enrolled in the said national high school. However, students have difficulty in going to and from the school due to the very poor condition of the existing pathway. Because it is often trodden, it is muddy and slippery especially during rainy season thus, endangering the health and safety of the students. Furthermore, the school is situated in a place quite far from the main municipal road. It is adjacent to the diversion road. School officials sought the financial assistance of the Municipality of Hinabangan for the construction of the pathway because of the limited budget of the said municipality, construction of the same cannot be undertaken.

The proposed measure is also in line with the government policy of promoting rural development. Its approval is, therefore, earnestly recommended.
