Thirteenth Congress
Second Regular Session

House Bill No. 5438

Introduced by Honorable Catalino V. Figueroa

EXPLANATORY NOTE

This bill seeks to provide for the construction of a multi-purpose building and pavement at the Calapi Elementary School in *Barangay Calapi*, Municipality of Motiong, Province of Samar.

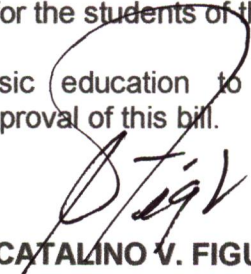

School structures are very important in the everyday learning and schooling of the youth. It is during this stage in a student's life when he/she learns from basic education, in particular and in life, in general. It can be considered as a part of the foundation for a good education. Sports and other curricular activities are included in these learnings and good basic education.

The Province of Samar is in the path of storms and typhoons which devastate many structures including school buildings, classrooms and other school-based edifices aside from other properties. Since the province is visited by rain more often than any other place in the country, it is imperative that a covered court be constructed so that the students can go about with their daily activities even during the rainy season.

Calapi Elementary School is not spared from all the perils that nature, sometimes, bring to us.

Since the students of Samar performed well in the recently-released National Achievement Test, it is one gift for the students of the said school.

In order to deliver better basic education to the youth, this representation earnestly seeks for the approval of this bill.
