Thirteenth Congress
Second Regular Session

House Bill No. 5452

Introduced by Honorable Catalino V. Figueroa

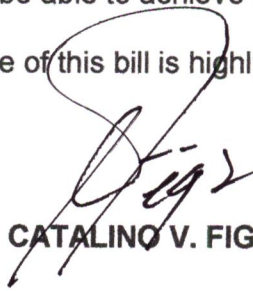

EXPLANATORY NOTE

This bill seeks to construct a three (3) room school building for the Villareal II Central Elementary School, Municipality of Villareal, Province of Samar.

The Villareal II Central Elementary School is an ordinary public elementary school by ordinary students. It faithfully served the needs of its students by giving them the necessary basic facilities that the school can offer despite of its lack of classrooms. For so many years now, a two-room school building with a capacity of six classes are being utilized to accommodate eight regular classes. Further, it can no longer accommodate a big number of students because of its deteriorating condition. Students are forced to hold their activities outside the classrooms or in the open space in between school buildings.

It has been the dream of the school's students, teachers, administrators and parents that there be constructed a three (3) room school building in their school so that they maybe able to achieve quality education.

In view of its importance, passage of this bill is highly recommended.
