Thirteenth Congress
Third Regular Session

HOUSE BILL NO. 5665

Introduced by HONORABLE JUSTIN MARC SB. CHIPECO

EXPLANATORY NOTE

Children with special potentials deserve the unqualified support of the government through a specialized institution that will be the springboard of enhancing their potent capabilities in scientific research and studies.

The Second District of Laguna with its component municipalities of Los Baños, Cabuyao, Bay and the City of Calamba is no exception in being gifted with these special children.

This bill seeks to establish a National Science High School, to be known as the Calamba National Science High School that will be the institution to harness the capabilities of the children in the area of the sciences. Properly guided, the potentials of the gifted children will be properly honed with the given propensity for exploring their individual skills to the fullest extent. They need the encouragement from the government coupled with the moral and financial support in their endeavors

Approval of this bill is therefore earnestly requested.
