THIRTEENTH CONGRESS
First Regular Session

House Bill No. 02

Introduced by Honorable Roque R. Ablan, Jr.

EXPLANATORY NOTE

This bill seeks to establish a drug rehabilitation center in every region in the country.

The illegal drugs menace is now considered public enemy no. 1 all over the world and poses a grave threat to a country's national security. In our country, it has alarmingly penetrated almost all sectors and levels of society including the government, business, and even law enforcement agencies, and it may only take a little more time before the Philippines becomes another Colombia.

President Gloria Macapagal-Arroyo speaking during the National Anti-Drug Summit at the Manila Hotel said that, "the battle against illegal drug was no less critical and no less immediate than the government's war against Abu Sayyaf banditry, communist insurgency, terrorism and organized crime. Illegal drugs are much more damaging in the long term because they gobble the very heart and hope of our country - the youth. Because of illegal drugs, many lives are lost or ruined. Families are broken, brains are ruined just to give way to the gluttony of the few."

Several government agencies envisioned to lead the government's total war against dangerous drugs were created. Laws were passed to encourage the participation of the Local Government Units in both the prevention and control of the illegal menace. In short, our concern is how to eradicate or prevent the spread of illicit drug traffic in the country. We

should not, however, forget that a drug dependent is not a criminal but a victim who is in need of medical and psychiatric treatment and still can become a useful member of society. The government should likewise direct its national programs to promote and sustain the treatment and rehabilitation of victims of drug abuse, especially in the critical after-care and social reintegration stages. Bringing a person back to the state of being where he can successfully cope with the physical, psychological and social demands of family and community life is one way of helping a sick person become a useful and productive member of the community.

It is by the establishment of a rehabilitation center in every region of the country that we can make accessible to every drug dependent medical facilities for a speedy recovery from the physical and mental trauma brought about by dangerous drugs. Hence, approval of this bill is earnestly recommended.
