

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

SIXTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. **541**

Introduced by **HONORABLE LANI MERCADO-REVILLA**

EXPLANATORY NOTE

The State, exercising its power of *parens patriae*, may step into the shoes of natural parents to safeguard any child or incapacitated and dependent person or a physically challenged individual in need of protection against danger, risk of their lives and limbs.

Taking a child for a motorcycle ride can be a scary proposition. Recent incidents have occurred where children were severely injured while riding on a motorcycle. This is because, unlike adults, children lack the development skills to pay attention and properly secure themselves while riding a motorcycle.

It's a known fact that kids are more excitable and have the tendency to move more than an adult passenger. They may even play games by sticking their hands out in the wind while riding a motorcycle. Moreover, they generally want to talk and move more than an adult passenger.

Likewise, the steady rumble of the motor can have a tendency to lull passengers to sleep. With adults, this usually does not present much of a problem since it would be harder for them to fall off. But with children, it is a completely different situation. Because of their size, there is generally more room for them between the rider and the sissy bar and if they fall asleep, there is a greater chance for them to flop over to one side or another. When this happens, there is an increased chance for children to fall off the motorcycle.

This bill seeks to supplement Republic Act 10054, which was enacted last March 23, 2010, which mandates all motorcycles riders to wear standard quality helmet while driving. This bill is consistent with the policy to provide safety measures to all riders and passengers, particularly the children passengers aboard motorcycles.

Hence, passage of this bill is earnestly sought.
