House Bill No. 871

Introduced by REP. AUGUSTO BOBOY SYJUCO

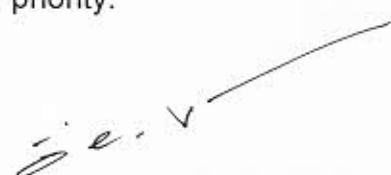

EXPLANATORY NOTE

It has been a vicious budgetary practice of past administrations to generate savings by withholding a significant percentage of the appropriations for funded projects than their full utilization for their intended purposes.

However, this practice has some negative impact on the implementing agency's ability to complete the full implementation of funded and programmed projects because a significant part of the allocated budget is being withheld to generate savings for the government.

Until we see a situation where budgets for specific projects are fully implemented the way of releasing the full amounts of such funds, then it will bring out a situation where some projects remain unfinished for fund shortage caused by the non-release of the full amounts as allocated.

For this reason, this bill takes higher priority.
