**EXPLANATORY NOTE**

This bill seeks to mandate that basic self – defense techniques be taught to enable females to protect themselves in the event of immediate danger. This is based on the principle that self - defense is an instinct that needs to be developed.

Equipping our female populace with a self – defense mechanism hits two birds with one stone as it will also address another sensitive issue: heinous crimes.

The alarming upsurge of such (heinous) crimes has resulted not only in the loss of human lives and wanton destruction of property, but also has affected the nation's efforts toward sustainable economic development and prosperity. At the same time, it has undermined the people's faith in the Government and the latter's ability to maintain peace and order in the country.

Rape is a heinous crime; an act of violence. A frightening and traumatic experience. Rape exempts no female – girls, wives, mothers, grandmothers, the rich and the poor. The recent rape incidents are repugnant and outrageous to the common standards and norms of decency and morality in a just civilized and ordered society.

Without a defense mechanism, the physically weaker gender is likely vulnerable to assault, harassment, rape, and other violence. The pain, trauma, humiliation and damage inflicted on the victims are irreversible. Prevention is therefore, worth a ton of cure.

Violence against women creates a devastating effect not only on their physical and emotional well-being. It affects not only the victim herself, but the people around her, as well as future generations. To address this concern, the State needs a program to implement and enhance the protection of females. Toward this end, the State shall provide a more responsive scheme of prevention. Thus, there is an urgent need to impose that self – defense be taught to every female.
