House Bill No. **974**

Introduced by **REP. AUGUSTO BOBOY SYJUCO**

EXPLANATORY NOTE

Article II, Section 15 of the Philippine Constitution declares that the "State shall protect and promote the right to health of the people and instill health consciousness among them." To further promote public health, the government shall promote the importance that the public must be fully aware of their respective blood types and that this personal information constitute the basic information about them.

This bill proposes that all government issued identification cards, certificates and licenses must indicate the blood type of the holder. Since during emergencies, identification cards, certificates and licenses are the primary source of information of the authorities or rescuers, necessary medical attention will be provided immediately. It is therefore imperative that the holder must indicate only the accurate information to avoid further harm.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
