First Regular Session

House Bill No. 1035

Introduced by REP. AUGUSTO BOBOY SYJUCO, Ph. D.

EXPLANATORY NOTE

The bill seeks to upgrade the salary scale of any retiring government employee by one grade higher on the date of his/her retirement and the upgraded scale shall be the basis in computing his/her retirement benefits, thus enabling him/her to get more realistic benefits.

Since the enforcement of the law on retirement, government employees were just eased out into retirement and then left to tend for themselves. They become tolerated, inactive ex-employee, just floating with the current of the society until they are gone out of this world. Even the most self-reliant retired employees under the present situation are forced to live a life of misery, forced to beg from relatives and this is the most bitter pill of their remaining lives-mendicancy where they used to be the pillars of self-reliance.

Indeed, this is not an observation, but a sign of complete resignation on the part of the retired government employee who is helpless and cannot do anything except to live a life of misery. The employees soon to retire are not far behind because they are just waiting for their own time to retire and live miserable lives, as well. This outlook, however, has vital effect on the personnel recruitment of the government because it diminishes the attraction of the best applicants.

To show our sincere desire in uplifting and improving the socio-economic conditions of the government employees, early approval of this bill is earnestly requested.
