FIFTEENTH CONGRESS

First Regular Session

House Bill No. 1272

Introduced by REP. AUGUSTO BOBOY SYJUCO, Ph. D.

EXPLANATORY NOTE

The proposed bill seeks to prevent the undesirable practice of hospitals and medical clinics of preventing the release of fully recovered and/or dead patients for non – payment, either partially or fully, of hospital bills.

The aforesaid practice has resulted in unnecessarily prolonged, and hence more expensive, stay of the financially distressed patients. Unchecked and undisturbed, the practice is a simple case of detention against the will of the patients pending full payment of bills which, in a sense, constitutes a deprivation of liberty on grounds of financial incapacity. In any language, it is legally and morally unacceptable posture.

The bill allows the underprivileged patient to leave the hospital upon the execution of a duly secured promissory note and imposes a penal sanction for the violation of any of its provisions.

While the rights of hospital owners and/or medical practitioners must be respected, there must be a better and more humane way of treating patients who, having been adequately attended to, already wish to leave the hospital were it not for their unpaid bills. To the financially incapable patient, it is a matter of liberty and livelihood; to the hospital owners and the medical practitioners, it simply means a little financial sacrifice.

In view of the foregoing, approval of this Bill is earnestly sought.
