FIFTEENTH CONGRESS

First Regular Session

House Bill No. **1524**

Introduced by REP. AUGUSTO BOBOY SYJUCO, Ph. D.

EXPLANATORY NOTE

The best safeguard to our democratic political system is an enlightened citizenry who cannot be cowed nor dictated upon.

These are the citizens who would fight for their right to a better life; who would struggle individually and collectively to develop the country's economy and make it globally competitive.

These are the citizens who would farm and manufacture, manage businesses, build and lead organizations, run the government and uphold the country's independence.

These are the citizens our laws must serve and protect. These are the citizens whose right to education the State must guarantee.

Among these citizens are the underprivileged out-school-youth and adults who have graduated from the elementary but are unable to go to high school because of geographic and socio-economic constraints.

Many children of high school age are out of school because they have to stay at home during school hours to take care of younger siblings and do household chores to allow their parents and elders to earn a living. Others are prevented from attending classes regularly because they live far from the high school. In the case of youthful offenders, they cannot attend conventional classes because they are detained in correctional institutions.

There are also the youth whose secondary education is hampered by armed conflict as what presently besets the students in some areas in Mindanao.

Recognizing the critical immediacy of addressing the need for secondary education of the aforementioned citizens, this measure seeks to institutionalize the open high school system in the country.

The open high school system delivers educational services to high school students utilizing print, radio, television and computer-based communications, satellite broadcasting, teleconferencing and other multi-media learning and teaching technologies that allow students to study on their own without having to regularly attend classes in conventional classrooms. This alternative learning system is consistent with the constitutional mandate to democratize access to quality education at all levels even as it "recognizes the vital role of the youth in nation-building."

Accordingly, approval of this bill is earnestly sought.
