FIFTEENTH CONGRESS
First Regular Session

House Bill No. 1545

INTRODUCED BY HON. MARCELINO "MARCY" R. TEODORO

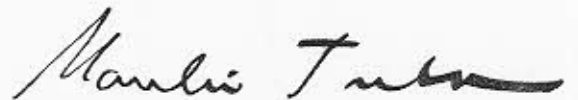

EXPLANATORY NOTE

This proposal hopes to improve and expand the availability of and access to, required comprehensive maternity care services that enable pregnant young girls to obtain proper care, and to help pregnant adolescents and their parents to become productive independent contributors to family and community life.

Presently, the Department of Health extends free prenatal and postnatal consultations geared to towards reducing maternal and infant mortality. However, it seems that there is a need for improvement on the existing institutional set-up, because as of now pregnancy among unmarried teenagers remains one of the most difficult and far-reaching social problems of our country.

Therefore, in keeping with Article II, Section 12 of the 1987 Constitution, which declared in essence that the State is mandated to equally protect the life of the mother and the life of the unborn from conception, this measure directs the government to provide prenatal and postnatal maternity services in the home of pregnant teenagers in order to protect their health as well as the future well-being of their newborns.

Hence, approval of this bill is earnestly sought.
