HOUSE BILL NO. 2381

Introduced by Hon. Emmanuel D. Pacquiao

**AN ACT PROVIDING FOR THE ESTABLISHMENT OF BREAST CARE CENTERS IN EVERY
REGION NATIONWIDE, APPROPRIATING FUNDS THEREFOR AND FOR OTHER PURPOSES**

EXPLANATORY NOTE

Data from the Department of Health indicate that breast cancer is the third most common cancer worldwide and is the most common among women. In the Philippines, it ranks 2nd among the common cancers on both sexes and ranks first among Filipino women. Reports even have it that breast cancer is highest in the Philippines compared to other Southeast Asian countries.

As in all types of cancer, the cause of breast cancer is multi-factorial and the possibility of cure is high when detected early. Hence, public awareness and education is vital in the fight against breast cancer. Information is our primary weapon and it is on this that we must focus our efforts.

This bill seeks to establish breast care centers in every region nationwide to spearhead a sustained information campaign to raise the public's level of awareness on breast cancer, take the lead in providing affordable services in the fight and cure of the disease, and coordinate with the Department of Education to ensure that the ills, causes and symptoms of the disease are regularly discussed as part of the high school curriculum.
