FIFTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 2525

Introduced by Rep. Wilfredo Mark M. Enverga

EXPLANATORY NOTE

Filipino children up to six (6) years of age deserve the best care and attention at the family and community levels. Towards this end, Republic Act No. 6972 was enacted in 1990 which mandates the establishment a day care center in every barangay.

Day Care Centers provides support programs that ensure total development and protection of children. Day Care workers provide intellectual and mental stimulation to the children, as well as supervised wholesome recreation, with a balanced program of supervised play, mental stimulation activities, and group activities. They are utilized to assist in the care of children and provide consultative services for medical, educational, and other needs of the children.

Nineteen (19) years after its passage, many of the day care centers in the country are in very deplorable conditions. Most of these Centers are in need of renovation or rehabilitation. Many barangays in the country do not have separate center and some of these centers are in sharing with the office of barangay officials.

Lack of funds has been the perennial problem in our day care system. The government has not been able to provide enough resources (i.e., building, materials, medicines, children books, tables and chairs) and nutrition to support the ever increasing number children in the day care program.

The present budgetary allocation of the Department of Social Welfare and Development and the LGUs cannot address the deficiency in the day care program due to other priorities.

This bill seeks to address pressing problems in the implementation of day care program nationwide i.e., shortages of center, day care materials and equipments, dilapidated centers and others by providing for a one-time appropriations to address such deficiencies.

In light of the foregoing, passage of this bill is urgently sought.
