House Bill No. 3142

Introduced by Rep. Maria Carmen Zamora-Apsay

EXPLANATORY NOTE

Republic Act No. 7883 granted benefits and incentives to barangay health workers who have undergone the appropriate training programs to voluntarily render primary healthcare services in the community and were accredited to function as such by the local health board in accordance with the guidelines promulgated by the Department of Health.

Among these benefits are the hazard allowance, subsistence allowance, educational programs, scholarship grants, special training programs, civil service eligibility upon qualification, free legal services and preferential access to loan services.

Curiously left out is the provision of health care benefits for these commendable individuals who provide accessible and acceptable health services anchored on the Primary Health Care Approach of government.

This measure makes up for the want by mandating the Barangay Health Workers coverage in the National Health Insurance Program under the Philippine Health Insurance Corporation. At the very least, they and their dependents will be ensured of quality health care services that is affordable, acceptable, available and accessible.

The immediate and favorable passage of this bill is earnestly requested.
