HOUSE BILL No. ~~3343~~

Introduced by Rep. TEDDY A. CASIÑO

EXPLANATORY NOTE

This bill seeks to provide for a standard rate of transaction fees and charges on automated teller machines (ATMs) and require the posting of a notice of said fees and charges on ATMs' screens and monitors prior to the completion of any transaction.

The advent of ATM banking has allowed bank account holders to access their accounts any time of the day or night. However, this convenience does not come without a price. Banks offering ATM services impose fees and charges, normally to ATM users who are non-depositors of their bank, for each transaction successfully made. The amount of fees and charges varies from one bank to another depending on the type of transaction made.

With different ATM transaction fees and charges, ATM users often get confused as to the remaining balance of their bank accounts after making a transaction or series of transactions. Worse, some ATM users are not informed of the fee or charge imposed or automatically deducted from their bank account. This often results in agitation from unwary ATM users when they belatedly find out about these prohibited fees and charges.

Banks with ATM facilities should therefore serve the public and spare them from unnecessary trouble or anxiety by imposing a standard rate of ATM transaction fees and charges. Likewise, banks should be required to post a notice of these transaction fees and charges on their ATMs' screens or monitors prior to the completion of any transaction in order to adequately inform and protect ATM users against any hidden fees or charges.

In view of the foregoing, passage of this bill is earnestly sought.

Approved.
