HOUSE BILL NO. 4866

Introduced by Rep. BERNADETTE HERRERA-DY

EXPLANATORY NOTE

This bill seeks to change the start of the school year from June to September amending for the purpose Republic Act No. 7977 entitled "An act to lengthen the school calendar from Two Hundred (200) days to not more than Two Hundred Twenty (220) Class Days.

Section 17 Article II of the Constitution provides that " The State shall give priority to education, science and technology, arts, culture, and sports to foster patriotism and nationalism, accelerate social progress, and promote total human liberation and development." Corollary to this the State shall ensure that students should develop the basic competencies amid a safety learning environment.

The existing school year calendar begins from June through March of each year, falling within the rainy season. During this time, strong typhoon hits the country bringing in catastrophic floods, heavy traffic and highly communicable diseases. Students are exposed to all kinds of risks and danger that most decide to miss classes to avoid exposure to such elements. This leads to poor academic performance and subsequently low achievement rate. Moreso, classes are usually suspended due to typhoons, thus, the required number of school days are not maximized for learning.

As a matter of fact, another strong typhoon again hit our country on the very first week of the class which resulted to heavy floods in different parts of the country. This caused suspension of classes not only for a day because some parts of the country are still flooded for several days.

Changing the school opening from June to September will definitely improve the learning conditions for the students and ultimately lead to more productivity.

In view of the foregoing, approval of this bill is earnestly sought.
