EXPLANATORY NOTE

This bill seeks to enact into law a non-wage benefit for public school teachers in return for their steadfast dedication to the education of our nation's youth. This bill takes into consideration the role of education in nation-building and the importance of those who play a vital role in carrying out the State's policy.

Teachers are considered mentors, known to be unsung heroes of every generation, and yet, a good number of dedicated and erudite teachers are unable or find it very difficult to send their own children to college. It is the aim of this measure to promote the right to education of everybody as guaranteed by the Constitution by providing access and opportunity to the children of these teachers. Thus, this also seeks to correct the irony and therefore address the dismal situation of education in our country and the financial hardships that our public school teachers face to provide tertiary education to their own children because of their meager income as public school teachers.

There is so much work to be done in our economy and for the education system in our country. Consequently, the desire to education is given more weight than rigid plights. In the light of the foregoing premises, thus, the approval of this bill is earnestly sought.

JOSEPHINE VERONIQUE R. LACSON - NOEL
