EXPLANATORY NOTE

Article XIV, Section 1 of the Constitution provides that "*xxx The State shall protect and promote that right of all citizens to quality education at all levels and shall take appropriate steps to make such education accessible to all.*"

The accessibility of quality education to all citizens is the main purpose of this proposed measure. To concretize this vision, this measure seeks to require all colleges and universities to provide scholarship grants to poor but deserving students.

In order to enforce the clear mandate of the Constitution, all colleges and universities shall be required under this measure to give their full support in the implementation of an effective scholarship program geared towards the holistic education and training of poor but deserving students and to provide them the necessary support mechanism to finish their education.

This measure aims to empower and educate poor Filipino students by giving them the avenue to finish their college education and thereafter pursue productive careers. When we educate the poor and provide them with the educational support mechanism to finish their studies, we proactively contribute to the welfare and well-being of this nation.

In view of the foregoing, the passage of this bill is earnestly sought.
