House Bill No. 6324

Introduced by : Atty. MA. THERESA B. BONOAN-DAVID
Representative, 4th District Manila

EXPLANATORY NOTE

The burgeoning number of our Overseas Filipino Workers (OFWs) shows that we need to provide this sector of our population more attention and significance. More so that in the previous years, they have been the victims of exploitations within their respective workplaces in foreign countries. They are there precisely to earn better income and be able to afford their families better economic conditions.

Being in a different country is quite difficult given the fact that access to medical privileges is not equally granted to non-citizens. This is not to mention the fact that our OFWs income in times of illnesses or diseases only goes directly to medical expenses leaving their families with nothing. Such being the case, the realization of our OFWs' dream of alleviating their present economic conditions are usually hampered by such inevitable circumstances.

In order to address this issue, this bill among others, aims to:

- To construct, establish, operate and maintain a medical center for Overseas Filipino Workers and their Families;
- To promote, encourage, and engage in scientific research on the prevention and the care and/or treatment of common and recurring cases of sickness among OFW patients and related activities, including sponsorship and conduct of relevant congresses, conventions, seminars and conferences;
- To facilitate and encourage the dissemination and exchange of ideas and information on the prevention, treatment, and control of such diseases; to arouse, enhance and develop public interest or awareness;
- To extend medical services to the OFWs and their families, to help prevent, relieve or alleviate their innumerable medical afflictions and maladies.

The immediate passage of this bill is fervently called for.
