AN ACT
PRESCRIBING SCHOOL BUS SAFETY STANDARDS AND FOR OTHER
PURPOSES

EXPLANATORY NOTE

It is the primary objective of the State to guarantee and promote the public safety especially in the transportation of passengers. When we talk of the transporting of people, particularly school children, then it becomes the more urgent that their safety and well-being is secured.

To be able to achieve this objective, it is essential that the State prescribe minimum design standards of school buses for the safety of student passengers. Given that our children spend a huge portion of their time in school, we must be vigilant in ensuring that their mode of transport is efficient and safe.

The bill, therefore, seeks to prescribe regulations to mitigate the effects of vehicular accidents by prescribing safety standards for school buses.

In view of the foregoing, the bill's immediate passage into law is earnestly requested.
