 First Regular Session

House Bill No. _____ **621**

Introduced by: **Congressman Mariano U. Piamonte Jr.** and
Congresswoman Julieta R. Cortuna, Representatives, A TEACHER Party-list

EXPLANATORY NOTE

Republic Act No. 9211 otherwise known as “An Act Regulating the Packaging, Use, Sale, Distribution and Advertisement of Tobacco Products and for Other Purposes” was enacted in 2003. It has been eight (8) years since the law was enacted but there are loopholes and gaps in the law that need to be addressed in order to fully implement the intent of the law and make such implementation effective.

One of the ineffective prohibitions is on the restriction of sales of tobacco products within 100 meters from schools. This is really violated where students can access tobacco products beyond the restricted areas. Thus, this proposed measure provides the restricted areas for selling of tobacco products that are even beyond the 100 meters restricted area.

This bill also seeks to implement an absolute smoking ban on schools and other education establishments in both public and private sector.

This bill also seeks to expand the composition of the Inter-Agency Committee on Tobacco (IAC-T) under RA 9211 to include the Commission on Higher Education (CHED) and the TECHNICAL EDUCATION AND SKILLS DEVELOPMENT AUTHORITY (TESDA). The IAC-T is the agency that takes charge of regulating and monitoring the implementation of RA 9211. While DepEd is currently a member of the IAC-T under RA 9211, the DepEd's jurisdiction extends only to elementary and high school institutions. It is worth including the CHED and TESDA so that these agencies can participate in the review of Implementing Rules applicable to higher education institutions and post secondary training centers where the propensity of students to smoke is higher than those in the elementary and high school institutions.

To provide a smoke free campus and smoke free students, the approval of this Bill is urgently sought.
