SIXTEENTH CONGRESS
First Regular Session

House Bill No. 673

Introduced by REP. CESAR V. SARMIENTO

EXPLANATORY NOTE

Motorcycle accidents are the leading cause of accidents in the road these days according to a report made by the Department of Health. Furthermore, based from the Metro Manila Accident Reporting and Analysis System Annual Report prepared by the Metropolitan Road Safety Unit, motorcycles have the highest fatality rate in Metro Manila.

From years 2006 to 2010, motorcycle related mishaps have alarmingly increased. In 2006, it has the highest percentage share of road accidents at 29.59%. In 2007, it increased to 32.4%. The following years reflect a growing trend from 34.96% to 36.78% to 37.63% in 2008, 2009 and 2010 respectively.

These facts are dauntingly alarming. Despite various efforts both of public and private agencies to curtail these accidents, it is still indubitable that at the heart of this problem is the lack of education of most motorcycle drivers as to the proper road safety measures that will make their lives on the road safer.

Due to the rising use of motor vehicles as a mode of transportation both in the cities and the countryside, it is but necessary that owners of these motor vehicles be properly trained of the fundamental skills needed in order to safely operate and drive a motorcycle. This bill shall encourage motorcycle riders to strictly obey traffic rules and road safety precautions.

In the light of the foregoing, the passage of this bill is earnestly sought.
