HOUSE BILL NO. 753

Introduced by Honorable Danilo Ramon S. Fernandez

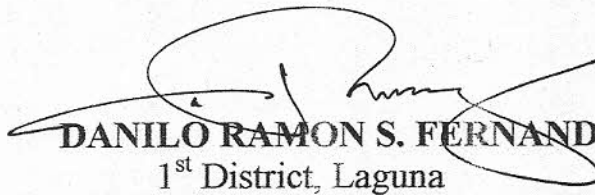

EXPLANATORY NOTE

Roads are crucial to our economy. The mobility and relative ease in the transport of goods and prime commodities as well as the effective delivery of basic services are affected and determined by the conditions of access roads.

Being a definitive factor towards progress, it is not enough that roads are just constructed. The State must ensure that they are regularly repaired and maintained. Given the fiscal limitations of the provincial government of Laguna, however, the San Francisco Road in Barangay Canlalay, City of Biñan in Laguna has been continuously deteriorating, thereby hampering economic activity around the area.

Through the conversion of the San Francisco Road into a national road, the allocation of annual funding from the national government for its construction, repair and maintenance is ensured.

In view of the foregoing, the passage of this bill is earnestly sought.
