HOUSE BILL NO. 807

INTRODUCED BY CONGRESSWOMAN AURORA ENERIO-CERILLES

EXPLANATORY NOTE

It is the duty of the State to establish and maintain a system of free public education in the high school level, to protect and promote the right of citizens to quality education, and to take appropriate steps to make education accessible to all. This bill seeks to carry out this duty through the establishment of a National High School in Barangay Punta Flecha, Municipality of Pitogo, Province of Zamboanga del Sur.

A barangay of a fifth-class municipality, Barangay Punta Flecha has a sizable number of elementary graduates who are unable to pursue secondary education because of the location and limited number of high schools in the vicinity. In fact, the nearest high school is located more than eight (8) kilometers away from the barangay. This hinders the residents' right to accessible education and deprives the barangay the opportunity to develop its community and improve the quality of the residents' lives in various aspects – economic, social, cultural, political, and spiritual.

Economically, education provides citizens the necessary knowledge, skills, and values that will support the country's economic growth and will make the country progressive and prosperous. Most importantly, education helps break the vicious cycle of poverty from one generation to the next.

The establishment of a National High School makes high school education more accessible to the barangay and would result to more educated Filipinos who would then have better opportunities to improve their living standards. This bill does not only give utmost importance to education but also helps in creating economic opportunities and strengthening our national economy.

I therefore seek the immediate passage of this very important bill.
