First Regular Session

HOUSE BILL NO. 846

Introduced by Representative Alfredo D. Vargas III

EXPLANATORY NOTE

A responsive and pro-people health care system is one of the basic social services that the government should provide its people.

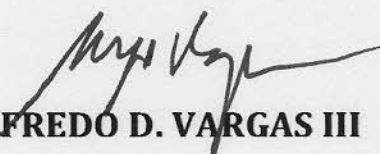

Novaliches District Hospital is in need of upgrading to the next higher level or status as a delivery system of health care. Said upgrading will protect and promote the right to accessing health services of the people. This shall also be of aid in instilling health consciousness among the constituents of the Novaliches District. As a State policy, it is enshrined in Section 15, Article II of the 1987 Constitution that "*the State shall protect and promote the right to health of the people and instill health consciousness among them.*"

Performances of hospitals have become a mathematical problem in the country and thus, requiring a simple solution – its upgrading. The rapid growth in population clearly dictates the necessity of an upgrade coupled with modernization in order to relevantly address the issues inherent in its operations.

Another important feature of this bill is the appropriation of the funds thereof in order to properly implement the provisos contained herein.

This bill was originally deemed necessary by the Honorable Winston Castelo of the Second District of Quezon City.

The immediate passage of this bill is imperative.
