

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City, Metro Manila

Sixteenth Congress
First Regular Session

HOUSE BILL NO. 899

Introduced by Honorable Erlinda M. Santiago

EXPLANATORY NOTE

This bill seeks to establish an assistance program designed to enhance the capability and productivity of individuals engaged in livelihood activities to be known as the Livelihood Enhancement Assistance Program (LEAP) under the supervision of the Technology and Livelihood Resource Center (TLRC).

Despite several attempts being made by the government to alleviate poverty, a large number of Filipinos are still living below the poverty line. The proposed measure aims to improve the living condition of our poor countrymen. The program would benefit not only the unemployed, the low salaried worker but also individuals already engaged in livelihood activities.

As envisioned in this bill, LEAP will provide modest financial assistance for the establishment of small livelihood enterprises such as *sari-sari* or dry goods stores, canteens, rural transportation such as jeepneys, tricycles, pedicabs, and such other livelihood projects. LEAP shall be administered by the provincial offices of the TLRC.

LEAP is different from other livelihood programs because of its minimum requirements unlike agricultural loans being handled by rural banks and other financial institutions which require the filling up of voluminous documents. LEAP also offers loans at very minimal interest to individuals or organizations to help them start or establish a business. For this purpose, the TLRC may employ the services of its technical people. This program highly conforms to the goals of a people-oriented and truly democratic government.

In view of the foregoing, support and approval of the bill is earnestly sought.
